Istruzioni per la manutenzione

Pulire ogni giorno le lame con pelle di camoscio o con tessuto morbido imbevuto d'olio per macchina da cucire, ed una volta la settimana, oleare le forbici nei pressi della vite, senza rimuoverla, sempre con olio per macchina da cucire.

Maintenance instruction

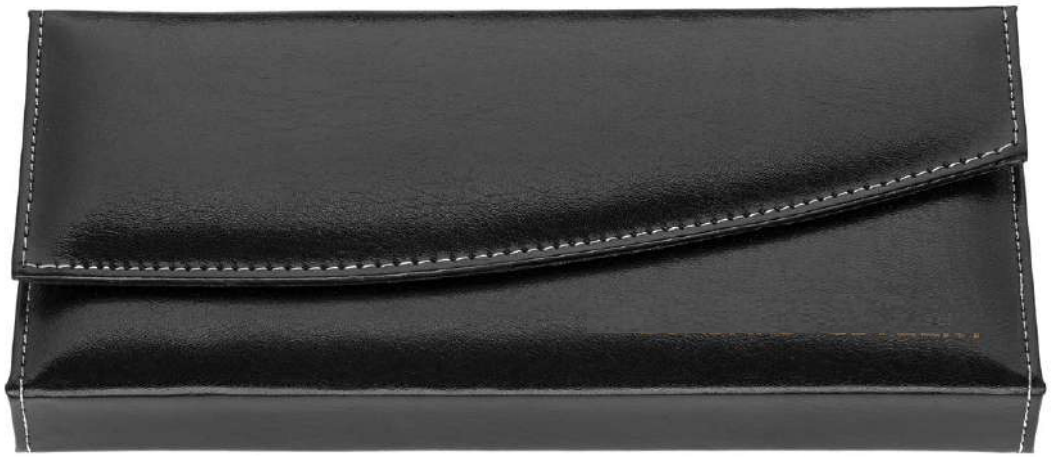

For normal daily care clean both sides of the blades after use with a chamois leather or soft cloth dipped in vaseline or sewing machine oil. Once a week also oil the screw (without removing it).
